WHAT REALLY MATTERS

What was the highlight of your JA Inspire experience?

Educator feedback:

“The highlight of the event for me was to see my students interact with community members and ask them questions to learn more about careers.”

“It was inspiring to see students engage with local employers and learn about the career opportunities available in Southeast Iowa. Their excitement about the possibilities in our area was especially encouraging.”

“This event was so well organized, both students and staff had nothing but positive feedback about the valuable experiences they had. The hands on activities, immersive opportunities and variety of employers was appealing to all of our students.”
